FEATURES

Instrument Whisperer

Sharp instruments allow surgery to be performed with more precision and accuracy. In the OR, a chief complaint about instruments is their lack of sharpness—and scissors are the instruments that dull most frequently. Learn more about proper testing practices and sharpening frequency for scissors and Kerrison rongeurs.

Steam Sterilization Technology and Challenges
CONTENTS
NOVEMBER / DECEMBER 2022

10 | Call for Nominations
HSPA is now accepting nominations for individuals to serve on the Board of Directors. Members of the Board of Directors play an integral role in the direction and vision of the Association. Submit your nomination by November 30, 2022.

66 | Technician’s Exchange
New SP employees must learn about the various areas and interdisciplinary teammates with whom they will interact, and it is equally important that surgeons and other SP customers also understand what takes place in the SPD.
